

Gala

Celebrating Courage, Community, and Change

Spring 2026

Dear Supporter,

We are excited to invite you to be part of a special milestone, Valley Health Associates' first gala, *Celebrating Courage, Community, and Change*, taking place on Saturday, August 8, 2026 at Fairview Laguna Seca in Monterey. We hope you will join us as a valued sponsor for this meaningful evening.

Valley Health Associates (VHA) is a leading provider of outpatient substance use disorder services in Monterey and San Benito Counties. Through a **whole-person approach to care**, we support youth and adults in building healthier, more stable lives. Our programs combine evidence-based practices, including Medication Assisted Treatment, with compassionate, individualized support in a safe and welcoming environment.

At the heart of our work is a **commitment to dignity, respect, and meaningful care**. We believe that lasting change happens when individuals are met with understanding, provided with the right tools, and supported every step of the way. By working closely with community, governmental, and judicial partners, we are able to expand access to critical services and create stronger pathways to health and wellness.

As we continue to grow, our focus remains on deepening our impact and reaching more individuals in need. With the launch of our new mobile wellness unit, we are **expanding access to care and bringing services directly to underserved communities** where they are needed most. We are reaching out to you because we know you share our commitment to improving lives and strengthening our community through compassionate, accessible care.

Together, we can celebrate the resilience of those we serve while investing in a healthier, more connected future for our community. Thank you for your partnership with VHA and for considering a sponsorship.

With appreciation,

La Tonya Glover, MSW

OUR PROGRAMS

OUR IMPACT

Youth Outpatient Program

Provides age-appropriate services for youth and young adults, including counseling, peer support, and life skills to promote long-term wellness and stability.

Mobile Wellness Unit

Expands access to care by bringing medication-assisted treatment, counseling, and peer support directly to underserved communities in Monterey County (including Marina, Seaside, and South County) and San Benito County.

Adult Outpatient Program

Supports individuals in addressing substance use while maintaining daily responsibilities, with a focus on healthy routines, relationships, and personal growth.

Youth Prevention Program

Delivers trauma-informed programming that builds resilience, leadership, and awareness, helping youth make healthy choices and avoid substance use.

Medication Assisted Treatment (MAT)

Combines evidence-based medications with counseling and behavioral therapies to support improved health outcomes in a safe, supportive environment.

Wellness & Supportive Services

Offers holistic support including peer services, mindfulness, wellness activities, and access to essential resources that enhance overall well-being.

"VHA is a wonderful place. They teach you how to live again. With their support, I've been able to move forward and build a better life."

– Kelly C., VHA Client

We provide prevention, treatment, and supportive services for youth and adults in Monterey and San Benito Counties.
